GLOBAL QUALITY POLICY

At Bausch Health Companies Inc. (“Bausch Health”) we achieve quality health care outcomes for our patients through our customer centric focus and through People, Process and Product Excellence. Our quality commitment is to strive to exceed the growing expectations of our customers every day by consistently and efficiently delivering safe and effective products that are available to patients when they need them, while always meeting regulatory requirements.

All of us at Bausch Health are entrusted with this responsibility, and in order to sustain our quality commitment, we have instituted an effective, efficient, and compliant Quality system, and a global culture of continuous improvement.

We believe that with the right talent, tools and culture, together with a focus on attaining and sustaining excellence in the key processes that drive the quality outcomes of effectiveness, efficiency and compliance, we will fulfill our quality commitment to our customers.
